# DEVELOPER FORUM MOM

## 1 Agenda

- Showcase of the new Trello space
- Walkthrough of Trello board
- Navelink status update of services

## 2 Minutes of meeting

- Realm change from MCP to Navelink, this changes the url to get a token. For further questions please contact us.
  - <https://maritimeid.navelink.org/auth/realms/Navelink/protocol/openid-connect/auth> according to example: <https://developers.maritimeconnectivity.net/identity/index.html#obtaining-a-openid-connect-token-using-a-certificate>
- Issues when register new instances when acting for an organization.
  - The instance will be registered under the organization that is acting for the client organization.
- See FAQ for workaround.
  - OBS, requires mail functionality to use "+" additions to mail addresses.
  - Otherwise contact us directly and we will register the instances.
- Navelink is working on patching this issue before MCP 0.12 release
- Navelink have inherited a set of guidelines from the STM project.
  - [https://www.navelink.org/wp-content/uploads/2020/10/Navelink%20Guideline%20for%20Service%20Instance%20Registration\\_v1.pdf](https://www.navelink.org/wp-content/uploads/2020/10/Navelink%20Guideline%20for%20Service%20Instance%20Registration_v1.pdf)
- In the migration from MCP we have not enforced "provisional" and "released" status for services, but in 2021 we will make sure that some basic functionalities for services are met.
- The requirements set on services is something we gladly take your input on. For instance "Service type keywords", what words do you want to use (PPU/Pilot?) etc. Please read current guidelines and give us feedback.
- Roadmap of Navelink updates presented
